MASSERIA SAN NICOLA: THE LUXURY DREAM IN THE HEART OF APULIA

On the borders of the Salento region, in the Savelletri area, an area of Apulia where nature is largely intact and where life is still tied to tradition, stands the Masseria San Nicola, built by the Prince of Carbonelli and the summer residence of the Camicia family since the 19th Century. Now converted into a guest house, the estate, surrounded by marvellous landscapes and just a short hop from the sea, is distinguished by a relaxed family atmosphere but one that is at the same time luxurious, ideal for "switching off" from the stresses of everyday life.

The splendid manor house offers guests 6 spacious rooms, each one different from the other but all having in common a refined elegance and a strong bond with the territory, being the signature style of Masseria San Nicola and which also extend to the communal areas: a large lounge, kitchen, large dining area, terrace and private garden with a well-equipped swimming pool. Around the villa there are four houses, the ancient annexes – Fico d'India, Bouganville, Oleandro and Gelso -, that retain intact the rustic charm of the whitewashed stone dwellings of the Apulian countryside.

The completely independent houses provide guests with a fully equipped kitchen, large rooms, a living room and veranda or terrace, to guarantee the utmost privacy and the luxury of guests being able to use their time as they wish and so regain their own natural rhythms. Each house has its own personality and style: Casa Fico, white and with a retro style charm, and Casa Bouganville, romantic and fresh, are ideal for couples seeking accommodation far from any stereotypes, in a land full of history and tradition, where the accent is on sun, sea and relaxation; Casa Oleandro, bright and featuring a vaulted ceiling in tufa limestone, and Casa Gelso, which retains all the colour and the atmosphere of Apulian tradition, are perfect for hosting families looking for a seaside vacation in contact with nature and with no set time schedules.

Masseria San Nicola does in fact provide the unique sensation of feeling at home while at the same time being able to take advantage of the "bespoke" services of a luxury hotel, starting with breakfast, which can be completely personalised but which always features the splendid tarts freshly made each morning by the cooks, right up to shopping and cook in the home services, babysitting and dog sitting. Not to mention the wellbeing treatments and massages in the "Relaxation Room". The guest house complex is set in a garden with two fully-equipped swimming pools, surrounded by a wall as per local tradition, and full of Mediterranean flowers and fragrances, guaranteeing privacy for all guests, maximum security for young children and consequently maximum peace of mind for their parents.

The magical atmosphere of this ancient estate, distinguished by a refined elegance and a deep connection with the traditions of the land it stands on, makes Masseria San Nicola the perfect place for fairy tale weddings, with customised arrangements planned right down to the very last detail. The Bride and Groom are offered the opportunity of staying in the Manor house together with their closest friends and family for up to three nights, thereby prolonging the celebrations and making the whole experience together with their loved ones even more special.

Masseria San Nicola is not a hotel but a genuine house ready to welcome its guests, by virtue of its unique and distinctive features: the family atmosphere, the authenticity of the location, the fabulously tranquil ambience and the connection with the Apulian territory and its traditions. All this is coloured by a refined elegance that will make any stay on the estate an unforgettable experience.
